***FINEST STRAINS OF SEEDS
FOR FLORISTS AND NURSEYMEN***

THE MARTIN-PRATT SEED CO.

PAINESVILLE, OHIO

Best Wishes for 1941

To Our Florist and Nurseryman Friends:

To each of you we wish to hand this catalog, and greet you personally with our message.

Making the seed catalog this year is a real problem because of existing conditions. Fortunately many types of seeds are grown in this country, and our stocks are adequate in quality and quantity of these varieties. For other kinds, however, American seedsmen are dependent on foreign specialist growers. Orders can be placed abroad, but arrival of the seeds here is at best, uncertain as to time. On these items we were faced with the problem as to whether or not to include them in our list.

We can say that for the most part, seeds offered in this catalog are either in stock at the time of printing, or are in immediate prospect of arrival. Doubtlessly we have included some, of which stocks will never arrive. On the other hand, we have probably omitted some varieties that we will have later in good supply.

As seed costs are rising, we have lowered the expense of our catalog so that our prices to you may be as reasonable as possible. **We are making no compromise with quality.**

We say to you — send your list of requirements in early. We will in turn do the best we can to fill your orders in full, and with the quality you desire and need. Certainly our list of varieties is comprehensive enough to satisfy the needs of the most extensive and critical grower.

Please accept this catalog with sincere thanks for orders sent us in the past. We look forward to many pleasant future transactions with you.

THE MARTIN-PRATT SEED CO.

DISCOUNT FOR CASH WITH ORDER

5% on orders of \$24.00 or less
8% on orders of \$25.00 or more

This applies to seeds as quoted in this Catalog, except as otherwise specifically noted. Special quotations on larger quantities than quoted herein, of course, subject to such discounts as are quoted by letter.

Charge Accounts

Charge accounts are open to those who are known to us and to others who will furnish us with satisfactory credit references. When asking for charge accounts, kindly write on your business letterhead and give the name of your bank and two or three members of the horticultural trade with whom you have done business. Remember that a few days' time is necessary for us to open new accounts.

Terms

Terms are 60 days net, 2 per cent discount for payment in 10 days, unless specifically arranged otherwise. We reserve the right to charge interest at the rate of 6% per annum on past due accounts.

Postage Paid

We will prepay the postage on all flower and vegetable seeds listed in this Catalog.

For Commercial Growers

You are entitled to these wholesale prices if you are a commercial florist grower or a nurseryman. It is to protect you who are engaged in these occupations that we wish to limit the distribution of this Catalog to commercial growers only.

Adjustment of Claims

Must be entered at once, within 5 days after receipt of goods. We are very careful about the quality of the stock shipped our customers, and in cases of complaint you will find us very fair in making adjustments. The Martin-Pratt Seed Co. gives no warranty, express or implied, as to description, quality, purity, productiveness or any other matter of any seeds, bulbs, or plants we send out, and will not be responsible in any way for the crop.

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE and offers in this catalog on any variety are subject to prior sale, or to non-arrival of goods to us. Because of existing conditions and the fact that this catalog must go to press before actual receipt of some varieties of seeds, we cannot guarantee to fill orders complete for every item. Naturally we will exert every effort to fill your orders just as you desire them.

NEWCOMERS FOR 1941

Novelties of great merit catalogued for the first time. You will want to include a liberal number of these newcomers on your order.

After the variety name we are giving the catalog page on which you will find the description and price.

MARIGOLDS

Novelty Varieties 1941

Goldsmith Mission Giant. This golden orange variety is the first of Mission Giants with great globur flowers of the form of a fine florists Chrysanthemum. Blooms 4 to 5 inches in diameter, are borne on stems of good cutting length. Plants about 18 inches high, each carrying 8 to 12 basal branches. Earlier by two weeks than most African Marigolds. **Goldsmith is an All American winner for 1941.** Tr. pkt. 40c; $\frac{1}{4}$ oz. \$1.40.

Mission Giants Mixed. Orange, gold and lemon yellow shades. Tr. pkt. 30c; $\frac{1}{4}$ oz. \$1.00.

Giant Yellow Supreme. Very much larger than the original Yellow Supreme, and of a deeper shade. The giant size has been brought about by the use of the chemical Colichine. We heartily recommend your trial of this achievement. Available in packets only. Each 25c; 3 for 60c.

Pot o' Gold Dwarf Gigantea. Includes three fine characteristics namely, great size, size, fragrance and showiness. Plants dwarf and compact 12 to 15 inches tall, well branched, neat in appearance, and bearing a dozen or more large blooms at a time. Flowers somewhat loosely formed, full centered with broad heavy petals. Deep golden-orange. 100 per cent double, 4 in. or more in diameter and very early to bloom. Tr. pkt. 35c; $\frac{1}{4}$ oz. \$1.00; oz. \$3.40.

SPECIAL $\frac{1}{16}$ oz. each of the six shades, for \$1.50.

Seeds for Perennial Growers — In This Catalog Pages 20 to 31

True enough, conditions abroad make the importation of many seeds extremely difficult and uncertain, and in some cases impossible. In spite of that you will find our offerings still make it possible for you to grow from seed a very fine selection of perennials. Order your requirements early. If you do not already have a copy of our PERENNIAL DATE LIST with its sowing suggestions, send for it at once.
